Subject: Reject the APS attack on consumers

Dear Commissioners Arizona Corporation Commission,

As an Arizona ratepayer, I am deeply troubled by the extreme proposal submitted by APS in docket E-01345A-16-0036.

The proposal to move over a million customers onto mandatory demand charges is unprecedented and will require customers to constantly monitor their energy use out of fear of exorbitant charges.

Further, consumers have no way to determine when these surge prices are triggered.

The elimination of net metering is intended to penalize customers who intend to make substantial private investments to reduce energy and contribute to more resilient Arizona energy future. This would mean the loss of thousands of jobs in addition to consumer choice, and is a brazen attempt by a monopoly utility to eliminate free market competition.

I call on you to reject this proposal, and any other that seeks to impose discriminatory charges on ratepayers to pad monopoly utility profits. Arizona residents will be watching your actions on this issue.

Regards,

jason burk

Nature Of Opinion

Docket Number: E-01345A-16-0036

Docket Position: Against

Dear Commissioners: I have studied the proposal Arizona Public Service (APS) proposes to charge customers who chose to keep their analog meters by charging both a \$70 set-up fee and a \$15 monthly manual meter reading fee and is unacceptable. I have read that APS states that these fees are needed to "recover costs of manual meter readings." If it's true that APS did not list and enumerate their many cost savings, such as firing several hundred manual meter readers, and the associated fuel, maintenance, repair, and other costs of the hundreds of vehicles they previously used to make manual meter readings of several hundred thousand APS customers, than these charges are not only unjustified but robbery. Especially if these cost savings more than offset any costs of manually reading the meters of the few thousand customers who chose to keep their analog meters. I object to these unconscionable and egregious proposed fees because they are in violation of ACC statutes. For these reasons, I respectfully request that you deny APS these unfair and unjust fees. They are both unfair and unjust, especially for those presently trying to survive on limited incomes
